

Hi Naheed Nenshi,

Thank you for taking the time to send out this reminder. I was quite certain I had filled in your survey request. I appreciate the opportunity to reach more concerned citizens through this media. Good for you and your group for putting this together.

I am the Ward 6 Candidate that chose to withdraw from the 2007 Calgary Civic election, even though my name will still be on the ballot. It was upon serious and careful personal reflection as well as consulting with my Campaign Team and many people of Ward 6 that I made this decision. I believed it to be in the best interest of the Community at large, as I did not want to split the vote any more than it will be. I am hoping for a fresh voice that will truly represent the concerns of the Ward. I have had dozens of people ask me to reconsider my position and it has been rather tempting, but again, I would run the risk of splitting votes. The People of Ward 6 whom I spoke with at the doors (over 200) want a change and a voice for them at City Hall, and I sincerely hope they are able to achieve this goal. I have kept myself very busy since this decision (and before) working for this Community, (Coach Hill/Patterson Heights) of which I am the President. I am moving forward to making positive changes here, and around this area, without being the Alderman. I expect to succeed. I have been given a couple of wonderful gifts in the form of great people whom I have encountered during my short campaign, who have been very helpful in being forthwith with pertinent information to help us make this a great area. I am excited to be going in this direction.

Thank you for all you do to help educate the masses so that they may make good choices in their candidates.

Rosemary Berglund
Former Ward 6 Aldermanic Candidate
