1. Crime, AffordableHousing, Over Taxation.
2. a) We have to develop what we have first before we expand. We don't have the tax money to cover new areas annexed. Dalhousie? I'm not from the N.W. so I don't know what is going on up there at this time.
b) Yes we are facing a housing crisis. Not every house has to be built over two thousand sq.ft. with oak floors and marble counter tops they could be built more affordable.
c) No I do not support secondary suites, it would only turn established neighbourhoods into slums with no parking in the streets and double the garbage in the alleys, if they have alleys.
d) Urban Sprawl is a problem. We don't have the money to maintain it all even once it is built.
3. e) No newer areas have been totally left out. I would at least connect them to larger routes with shuttle services.
f) I used the bus service in my neighbourhood to get me to the C-train at Anderson Station to get me to City Hall and back home on Nomination Day.
g) It meets my needs when I go down town, it costs less than parking and it is just as quick.
h) I'd like to see that line go to the west that they have been talking about for so long.
i) Mount Royal for the students yes, but I can't see people riding it to the airport with their luggage at anytime.
j) The deep S.W. and the industrial area for workers in the S.E.
4. k) Because of the children I believe that we have to look after the family homeless first. Then I say help the ones that are trying to help themselves but I'm not real big on hand outs and if we give them everything for nothing we will just get more of them from other places.
l) The recent Arts Funding is something I'm not familiar with at this time. Sorry.
m) Curb side recycling should include organics, plastics, glass, and anything else that doesn't decompose. The less we put in our land fill sites the better.
n) Disallow the use of all Chemicals and Pesticides.
o) Hire the Police to insure the city is cleaned up, not just moved from one area to another. We have the new court house lets use it and let the government handle what we put away.
5. p) Yes. Hey I'd like to see us with a larger portion, Who wouldn't?
q) Yes. There is enough money in this system our revenue has went up by 43% over the last three years.
6. r) I don't ask for any campaign money so I don't know.
s) Left over? Those good old boys would just find ways to hide them.
t) I have to see.
